Management

You might be a master chef or hair stylist extraordinaire, but we are experts on discounts. As a small business owner, you need to think about so many aspects of your business, but getting people through the door--that's one thing you can delegate. Let us take that off your plate so you can wow them with what's on their plate.

So how does this work? Your customers show you the offer on their phone and you provide the discount. Easy! You pick the times for the discounts to be available. You can even decide how many you'd like to give out. You have the control. Our white glove services will get you set up and allow you to make changes simply and swiftly.

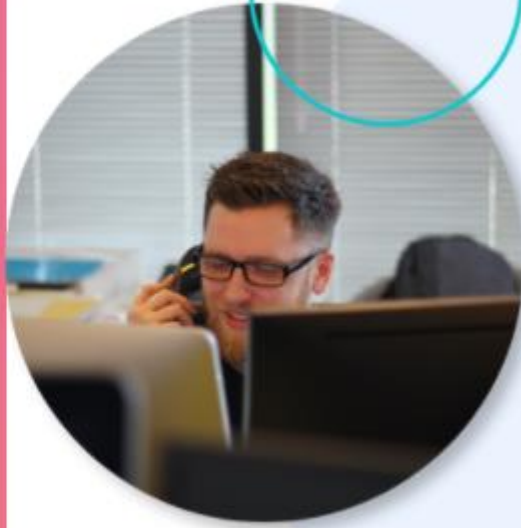

Analytics

Ever think of how great it would be to have a bunch of data scientists sitting in your back room providing you with information about the traffic to your business? You get that when you partner with Buxbo! It'll be like your own team of analysts sitting on empty milk crates back there, just waiting for you to poke your head in and ask a question. (But really, you can just call us or send an email so we don't take up all your space).

Buxbo's team of data experts are there to provide our merchant partners with helpful insights about their customers. This will give you the power to make more informed decisions and target your marketing efforts with more precision. Contact us so we can tell you more. We can do some pretty cool stuff.

Support

Our knowledgeable and friendly team of Buxbo experts will work with you every step of the way! We offer white-glove service to make your offer set-up quick and easy and we're ready to jump in and make changes or answer questions whenever you want. It'll be like you just hired a new staff member to optimize your marketing tactics and get people through your door! (And you will never have to pull us aside and talk to us about what is appropriate work attire--saving you headaches left and right!)

Talk to us today about how we can cross some things off your list. Actually, we won't take that satisfaction from you...you cross them off...we'll just do the work.
